Dominic Laveaux uses fear to rule his territory with an iron fist. All he wanted to do was make his own money away from his missing father s shadow but that seems to be hard to do with the events that follow after V s- his father s- disappearing act. After his secret formula is stolen from his crack house and is handed over to the competition, Dom is forced to search high and low for the thief, and uses leverage to do so. A young and reserved woman. Caine. Caine Taylor only thought that keeping her head bowed, moving in silence and avoiding eye contact- as she was taught by her mother- would benefit her non-existent life. However, she was in for the surprise of a lifetime when being introduced to a young savage. Dom. Her silence wasn t what he wanted. He brought her into a drug war, chaos, bloodshed and life when she thought that she could avoid all of it by sticking herself inside her shell. Contrary to her silent and closed in performance, Caine knows more than what she utters from time to time. Is she only pulling his leg for her own benefit? Her mother- Christy- was a former lab rat and a thief who managed to leave her 16 year old daughter behind because Christy pointed enemies right at Dom, and hauled ass before anything happened to her. But what would become of her kid? Dom himself tries to get as much information out of Caine before his arch nemesis can get his hands on the pure gem that is Caine herself, but has to battle it out before that happens. With...
