JAVA FOR KIDS (AND GROWN-UPS): LEARN TO CODE AND CREATE YOUR OWN PROJECTS WITH JAVA 8 (PAPERBACK)

Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Learn computer programming right from the start, in a visual and simple way, through Java language. This book is a different way to introduce our kids to programming, and an alternative path for those adults who want to learn to code in a playful and easy going manner. Learn at your own pace, through practice and with no need to invest huge amounts of time in tedious theory. Master the foundations of computer programming, with Java as your tool. What you will learn: Express your ideas through algorythms Compile your code Become acquainted with structured programming Know about the different data types and when to use them Build your own classes and methods Use decision-making statements Play with loops Handle exceptions in the code Access your system s files Invest in learning best practices This book presents the concepts as simple stories and explanations, dressed with ilustrations and metaphores that fit the children s minds and favor abstraction. Every activity has been designed as an experiment, and all of them can be done with just a text editor. You won t need to install an IDE or other specific software to write code, and of course you won t need any previous coding skills. You will start writing your own scripts from Chapter 0 and will follow on building your very own apps throughout the book, as the activities become more challenging. This book also includes two extra activities to make you build your programs following the real world software development lifecycle: design, plan, write, test, refactor! What you won t find in this book This is not an ordinary programming guide, and is not a summary of clumsy Java documentation...
