Excerpt from Annual Report of the Financial Affairs of the Town of Hanover: Including the Report of the Town School Board and of the Board of Education of Dist. No. 1, for the Year Ending Mar 1, 1893 As the efficiency of schools depend above all else upon the quality of the teachers, it is our belief that the district cannot make a wiser expenditure than that which is necessary to secure and retain teachers of recognized merit. While we cannot pay the salaries given in larger towns, it will be a wise policy to go to the extent of our ability in keeping up the efficiency of our teaching force. The experiment made last year of introducing the study of elementary Science into the intermediate room proved to be very successful. The work in physics and chemistry was necessarily limited by the lack of apparatus, but the children Were greatly interested, and in botany, where nature supplied the material for illustrations, they were enthusiastic. Herbaria were made that in many cases would have done credit to much older and more advanced pupils. The work, during the present year will be continued, with better preparation, but some addition should be made to the apparatus. Vnever been kept in such thorough preparation for the use of the school as by the present janitor. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
